

Athena Collection

Beautifully Robust

unios®

Unios Toolbox

This digital tool provides you with a platform for configuring, bookmarking and collaborating on luminaires for any project.

unios.com/toolbox

LX Configurator

Create a tailor-made linear design in minutes with the pioneering digital tool. With 24/7 access to customised shapes, specifications, IES, BIM and Revit files, there is no limitation to creativity.

unios.com/lxconfigurator

Catalogues

Stay up to date with the latest Unios luminaire releases with our range of product catalogues.

Lighting Simplified.

Building digital tools.
Sharing new knowledge.

Crafted in Australia

1 Luminaire Body

Made from high grade aluminium with <0.1% copper content, making it highly resistant to corrosion.

2 Lens technology*

Lens technology for better beam control, with 15°, 36° and 60° beam angle options.

3 Honeycomb Louvre

Additional optional honeycomb louvre accessory to maximise visual comfort.

4 Linear Lens

Additional optional linear lens accessory to achieve an elliptical beam output.

5 Deep Baffle*

Deep recessed baffle option to achieve lower glare and complement the lens.

6 Asymmetrical Baffle*

Asymmetrical baffle option used to create a forward throw or wallwashing effect.

7 Toughened Glass

Toughened glass to achieve a high impact rating of IK 10 for public and open spaces.

8 Textured Finish

UV resistant coating which exceeds the industry standard for micron thickness.

* Applies to Athena G2 Series

Introducing the Athena Collection –
A versatile outdoor collection with 2 models,
4 mounting options and over 800 possibilities.

1 Mounting Options

Illuminate in any direction, with three types of Athena fixtures – surface mounted downlight and fixed one or fixed two wall light.

2 Catenary Mounting

The catenary accessory allows the Athena to be suspended from cables, perfect for public spaces and outdoor entertainment areas.

3 Simple installation

In addition to built-in DALI, the new system also allows separate installation of electric components and luminaires.

The Athena Collection comes with an extensive range of accessories and optics. See the images below to explore the Athena's beam output options.

1 Standard

The Athena G2 Surface Mounted Downlight with a 36° beam output.

2 Elliptical

The Athena G2 Surface Mounted Downlight with the Linear Lens for a 30x70° elliptical beam output.

3 Wallwash

The Athena G2 Surface Mounted Downlight with the Asymmetrical Baffle for a 46° wall wash effect.

A meticulously engineered outdoor luminaire range with industry leading colour consistency and high resistance to impact and corrosion.

SDCM \leq 2

Meets the industry's highest standard for colour consistency in LED lighting with SDCM \leq 2.

Built-in DALI

The integral DALI driver simplifies cable installation and individual luminaire control making it highly convenient.

IK10

Built for resistance against high impacts and vandalism, ideal for public and open spaces.

IP66

Able to withstand water, dust and high pressure jets which commonly occurs in public facilities.

Up to UGR <10

A UGR range of <16 and <13 which can be further reduced with additional accessories.

L90B10

Lasting quality assurance and performance with lifetimes up to >55,000h.

Starts with our product engineers and ends with the expert touch of our local fabricators, the Athena is crafted in Australia, for the Australian conditions and environments.

A labour of love and light from Australia.

Australian customised and fabricated lighting in as little as 10 business days.

Find out more at: unios.com/craftedinaus

800+ variations

With a wide range of accessories and beam options, the Athena Series allows up to 800+ customisable variations.

10 days assembly

With a fabrication facility and warehouse in Australia, the lead time for the Athena Series is reduced to as little as 10 days.

With two models, the Athena G2 and Athena Max, and up to four mounting options, this Collection is an outstanding contender for commercial lighting applications, thanks to its high performance and modern minimalistic design.

Athena G2

A versatile wall and ceiling light, equipped with the latest lens technology.

Lens technology

Forward throw

Wallwashing

Athena Max

A high output wall, ceiling and suspended light, designed for maximum output.

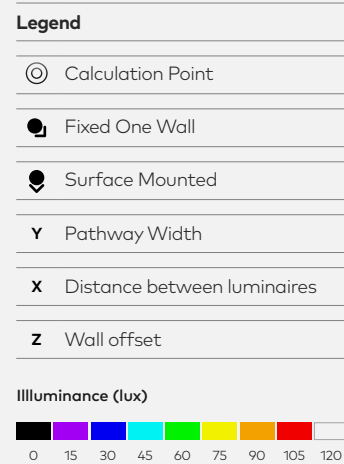

Catenary accessory

> 4100lm output

There is more than one way to light up a pathway. With the addition of new optical accessories such as the Asymmetrical Baffle and Linear Lens, we have created a few recommended arrangements for your visual reference.

Wall Application

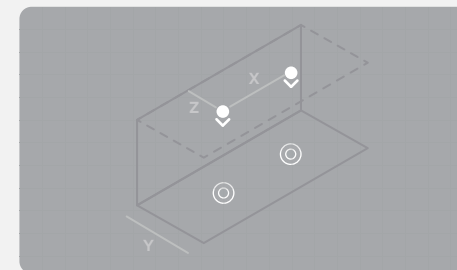

Optics	Standard
Type	Athena G2 Fixed One Wall Light
Beam Angle	36°
Pathway Width (Y)	3000mm
Mounting Height	3000mm
Luminaire Spacing (X)	5000mm
Average Illuminance	39lx
Minimum Illuminance	4.51lx
Uniformity	0.12
Calculation Grid	500x500mm

Asymmetrical Wall Application

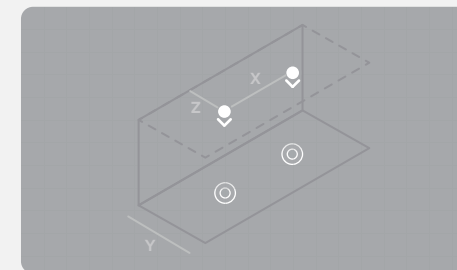

Optics	Asymmetrical Baffle
Type	Athena G2 Fixed One Wall Light
Beam Angle	36°
Pathway Width (Y)	3000mm
Mounting Height	3000mm
Luminaire Spacing (X)	5000mm
Average Illuminance	43lx
Minimum Illuminance	12lx
Uniformity	0.29
Calculation Grid	500x500mm

Ceiling Application

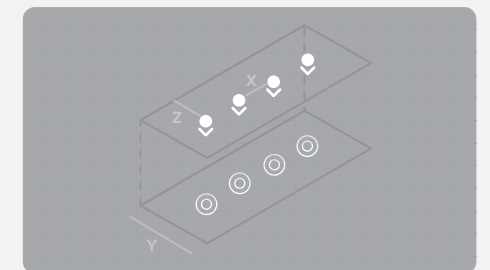

Optics	Standard
Type	Athena G2 Surface Mounted Wall Light
Beam Angle	36°
Pathway Width (Y)	3000mm
Mounting Height	4000mm
Wall Offset (Z)	1500mm
Luminaire Spacing (X)	5000mm
Average Illuminance	94lx
Minimum Illuminance	9.42lx
Uniformity	0.1
Calculation Grid	500x500mm

Ceiling Elliptical Application

Optics	Linear Lens
Type	Athena G2 Surface Mounted Wall Light
Beam Angle	36°
Pathway Width (Y)	3000mm
Mounting Height	3000mm
Wall Offset (Z)	1500mm
Luminaire Spacing (X)	5000mm
Average Illuminance	89lx
Minimum Illuminance	58lx
Uniformity	0.65
Calculation Grid	500x500mm

Ceiling Wall Wash Application

Optics	Asymmetrical Baffle
Type	Athena G2 Surface Mounted Wall Light
Beam Angle	36°
Pathway Width (Y)	3000mm
Mounting Height	3000mm
Wall Offset (Z)	2000mm
Luminaire Spacing (X)	2000mm
Average Illuminance	44lx
Minimum Illuminance	20lx
Uniformity	0.45
Calculation Grid	500x500mm

From design to documentation in seconds

Best-in-class product configuration tools

With different design and performance criteria for every project, discovering and configuring the right luminaire needs to be a seamless process. With the Unios Toolbox, you can filter through thousands of variations in seconds.

Export customised PDF and Excel lighting schedules

Project lighting can quickly get complex and time-consuming. We've developed a suite of tools to allow you to build a luminaire schedule, export it in PDF or Excel formats and integrate it back into your own project workflow.

More data accessibility than ever before

BIM objects, IES files, customised data sheets and product images are all easily accessible for your project requirements. All product variations are presented with a holistic view of each data point and piece of documentation you may require.

Special Thanks

This publication wouldn't be possible without the ongoing support of our project partners, distributors and photographers who have assisted in providing content.
