

W200.SIPR Cube LED wall light

Datasheet

Product codes

Unit: W200.SIPR	Series: CB	Colour temp: 3K 4K 5K 5.7K	Beam angle (°): 60	Colour: B (Black)	Driver: ND
---------------------------	----------------------	---	------------------------------	-----------------------------	----------------------

Dimensions (mm)

Front view

Side view

Electrical

Input voltage:
220-240V

Power usage:
5W

Driver power factor:
0.9

IP rating:
IP65

IK rating:
IK08

Dimmable:
No

Operational

Lumen output:
3K - 150 lm
4K - 176 lm
5K - 202 lm
5.7K - 220 lm

Beam angle:
60°

Light quality (CRI):
80CRI

Operating temp.:
-20 to 45°C

Ambient temp.:
-20 to 65°C

Lifetime L70, B10:
50,000 hrs (@TA25)

SDCM:
<6MacAdam Steps

Physical

Fascia colour:
Black

Warranty:
3 years

Installation

Step 1

Remove the side cap screws with a 'allen key then open the cover.

* Location of the allen key points
(2 in total)

Step 2

Turn off power supply then thread the electric cable through the seal.

* Thread the electric cable directly
through.

* If too tight, pierce the cable gland with
a screwdriver

Installation

Step 3

Put the seal washer around the screws

* The raised side of seal washer faces the same direction with the cross side of screw.

Step 4

According to lamp base mounting holes, drill holes in needed position, then fix the lamp base on the wall.

* Note the 'UP' mark on the bottom.

— N = BLUE
— YELLOW-GREEN
— L = BROWN

Step 5

Connect the wires accordingly.

Step 6

Connect the yellow wire (on the cover) to any side of the yellow wire connector.

Step 7

Re-attach the cover using the side screws.

Step 8

Installation complete.
